The master course 'Master of Business Entrepreneurship' (MBE) is currently being processed for accreditation by the NVAO. We expect this master course to be fully accredited by the end of 2008. The other master courses should be accredited by the NVAO by 2009. Students that apply in 2008 for one of our master courses that is not yet accredited, will thus graduate with an accredited diploma by 2010 (all master courses are 2 years in duration).

The quality of these programmes is closely monitored by the Via Vinci quality management system.

To offer more transparency and quality, Via Vinci aims to have all master courses accredited by the NVAO. This accreditation ensures the legal value of the master title.

* under development and in concept; study guide 2008-2010 will be available by the end of June 2008.
